# Mouse anti-Human CD45, PE Conjugated mAb

Catalog No: #28143

Package Size: #28143-1 25 Tests #28143-2 100 Tests

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

# Description

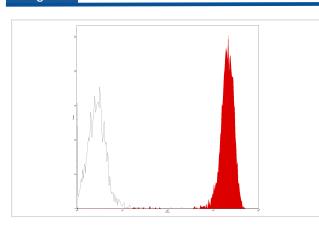

| Product Name       | Mouse anti-Human CD45, PE Conjugated mAb  |
|--------------------|---|
| Host Species       | Mouse   |
| Clonality          | Monoclonal  |
| Clone No.          | 4A9.4   |
| Isotype            | Mouse IgG2a   |
| Applications       | FC  |
| Species Reactivity | Hu  |
| Conjugates         | PE  |
| Target Name        | CD45  |
| Formulation        | Phosphate-buffered solution, pH 7.4, containing 0.09% sodium azide and 0.2% (w/v) BSA |
| Storage            | Store at 4°C. DO NOT FREEZE. LIGHT SENSITIVE MATERIAL.                                |
|                    |   |

### **Application Details**

Vol.per.Test: 10 μl/Test

Notice: This reagent has been pre-diluted for use at recommended volume per test in flow cytometry analysis. Typically add 10ul of this reagent to 100μl of experimental sample with 1 X 106 cells per test. Please refer to the detailed protocol when you perform a test.

Human peripheral blood lymphocytes analyzed with PE CD45 mAb

# Background

4AA9 reacts with CD45, a 180-220 kDa leukocyte common antigen (LCA). CD45 antigen is expressed at high levels on all hematopoietic cells including T and B lymphocytes, monocytes, granulocytes, NK cells and dendritic cells, but is not expressed on non-hematopoietic cells. CD45 antibody has also been reported to react weakly with mature blood erythrocytes and platelets. CD45 is a protein tyrosine phosphatase receptor that is critically important for T and B cell antigen receptor-mediated activation.

\*Target of immunosuppresive antibody treatment.
