#### Bax Rabbit mAb

Catalog No: #48690

Package Size: #48690-1 50ul #48690-2 100ul

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

# Description

Storage	Store at -20°C
Formulation	1*TBS (pH7.4), 1%BSA, 40%Glycerol. Preservative: 0.05% Sodium Azide.
Calculated MW	21kDa
Accession No.	Swiss-Prot#:Q07812
	transcript variant delta2 antibody Bcl2-L-4 antibody BCL2L4 antibody membrane isoform alpha antibody
	BCL2 associated X protein antibody BCL2 associated X protein omega antibody BCL2 associated X protein
	Baxdelta2G9 antibody Baxdelta2G9omega antibody Baxdelta2omega antibody Bcl-2-like protein 4 antibody
Other Names	Apoptosis regulator BAX antibody BAX antibody Bax-protein antibody BAX_HUMAN antibody BAXA antibody
Conjugates	Unconjugated
Immunogen Description	recombinant protein
Species Reactivity	Human;Mouse;Rat
Applications	WB, IHC, IP, FC
Purification	ProA affinity purified
Clone No.	SZ3-07
Clonality	Monoclonal antibody
Host Species	Recombinant Rabbit
Product Name	Bax Rabbit mAb

# **Application Details**

WB: 1:1,000-5,000IHC: 1:50-1:200FC: 1:50-1:100

Western blot analysis of Bax on different lysates using anti-Bax antibody at 1/1,000 dilution. Positive control: Lane 1: Hela Lane 2: MCF-7 Lane 3: Human liver

Immunohistochemical analysis of paraffin-embedded human tonsil tissue using anti-Bax antibody. Counter stained with hematoxylin.

Immunohistochemical analysis of paraffin-embedded human liver cancer tissue using anti-Bax antibody. Counter stained with hematoxylin.

Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue using anti-Bax antibody. Counter stained with hematoxylin.

Immunohistochemical analysis of paraffin-embedded mouse prostate tissue using anti-Bax antibody. Counter stained with hematoxylin.

Immunohistochemical analysis of paraffin-embedded mouse kidney tissue using anti-Bax antibody. Counter stained with hematoxylin.

Immunohistochemical analysis of paraffin-embedded mouse skin tissue using anti-Bax antibody. Counter stained with hematoxylin.

Flow cytometric analysis of Hela cells with Bax antibody at 1/50 dilution (red) compared with an unlabelled control (cells without incubation with primary antibody; black). Alexa Fluor 488-conjugated goat anti rabbit IgG was used as the secondary antibody.

#### Background

The Bcl-2 gene was isolated at the chromosomal breakpoint of t-bearing follicular B cell lymphomas. Bcl-2 blocks cell death following a variety of stimuli and confers a death-sparing effect to certain hematopoietic cell lines following growth factor withdrawal. Bcl-2 is localized to outer mitochondrial membranes and endoplasmic reticulum as well as nuclear membranes. A related protein, designated Bax (Bcl-associated X protein), has extensive amino acid homology with Bcl-2 and both homodimerizes and forms heterodimers with Bcl-2. Overexpression of Bax accelerates apoptotic death induced by cytokine deprivation in an IL-3 dependent cell line and Bax also counters the death repressor activity of Bcl-2.
